

Università di Cagliari

Universidade de São Paulo

Universidade Federal  
do Paraná

This is the second announcement of the

## International Workshop on Global Properties of Partial Differential Equations on Manifolds September 22-24, 2010

that will take place at the Department of Mathematics of the University of Cagliari in the period September 22-25, 2010.

The workshop is the framework of the international collaboration programmes with the Universities of São Paulo and Paraná, Brazil, and the activities of a PRIN project of MIUR, Italy.

Please find the web page of the meeting at: [www.mat.ufpr.br/eventos/cagliari](http://www.mat.ufpr.br/eventos/cagliari)

The arrival day is Tuesday, September 21, and the program will start on September 22 at about 9.00 and the end is planned for September 24.

For participants preferring to stay more days (before and/or after), we inform that there are informal seminars of the department in September 20-21 and the department is open Saturday morning.

If you are interested to give a talk please send us the title and a brief abstract before August, 20 (see latex model in the web page of the meeting).

We also report that, to ensure accommodation for all participants during the event, we made a pre-booking in the "Hotel La Terrazza". This is the closest hotel to the department

of Mathematics and the more economical, but there are also two additional choices of slightly more expensive and good quality hotels with special prices for the conference (see the web page). If one prefers other options hotels and B&B one can find easily on the web.

The participation fee is planned to be (at most) 60 EUR, including materials, coffee breaks and social dinner in good typical Sardinian restaurant.
